DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment filed on January 17, 2008. Claims 1, 4-6, 9-11, 15-17 have been amended. Claims 18-20 have been added by virtue of the amendment.
2. Claims 1-20 are currently being considered.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The independent claims 1, 17, and 18 all state have the limitation that a computer system is configured to be responsive to the presence of an identifiable entity proximate the computer system. It is unclear what the term "proximate" means in this context. Whether it means a user is authenticated to use the computer system, or is just in an undefined vicinity of the computer system is unclear

from the claims. Therefore, the claim is viewed as indefinite and further clarification is necessary.
